

Fix Mirrored Video

If your webcam video is recorded backwards, you can use the tool called **Free Video Flip and Rotate** to fix it.

1. Drag in your video or click 'Add File'

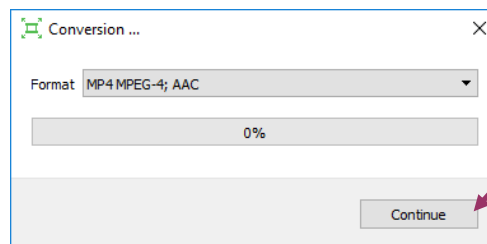

Original video is on the left. Preview is on the right.

2. Use the controls to flip or rotate as needed

4. Click **Save**

3. Choose **MP4** for most uses

5. Click **Continue**.

You'll have a second version of the video along with the original version.
